

Position: Medical Director/Senior Medical Director

Reports to: Executive Vice President, Development

Location: Remote – Seattle area

Blaze Bioscience is the Tumor Paint Company® developing technology to improve surgery through real-time, high-resolution visualization of cancer. Our first Tumor Paint product candidate, BLZ-100, is being evaluated in a pivotal clinical study in pediatric brain cancer. We are seeking a Medical Director/Senior Medical Director to join our team.

Purpose and scope of this position:

- Assesses unmet medical need that company products can fulfill
- Create and oversee clinical development plan for company products including assessment of competition
- Responsible for design of clinical trials and interpretation of clinical trial data
- Responsible for the safety assessment of the product – SAE and AE reconciliation, FDA reporting requirements
- Represent clinical to customers (KOLs, MDs, hospitals), FDA, potential partners, current and future investors
- Author and review NDA sections for medical/clinical and associated sections (clin pharm)
- Contribute to relevant clinical sections of 510(k) application
- Support regulatory filings (orphan drug, fast track, breakthrough designation)
- Participate in patent filings, research strategy/new uses of products
- Devise publication strategy for company products

Education, experience and skills:

- Medical degree (MD, MD/PhD or equivalent) with therapeutic area expertise in surgical oncology
- At least 10 years of clinical practice experience
- At least 3 years of clinical trial conduct experience involving drugs and/or devices as a principal investigator
- Familiarity with fluorescence guided surgery a plus
- Strong communication and presentation skills
- Strong organizational and interpersonal skills
